

Amelito Enriquez

Amelito Enriquez is a Professor of Engineering and Mathematics at Cañada College in Redwood City, CA. Since joining Cañada College in 1995, he has developed a number of federally funded programs to increase the participation, retention and success of underrepresented students in STEM. He is a recipient of the Presidential Award of Excellence in Science, Mathematics and Engineering Mentoring (PAESMEM), the American Society of Engineering Education Outstanding Community College Educator Award and the League of California Community Colleges Out-Of-The-Box Thinkers Award. He is currently the Chair Elect of the American Society of Engineering Education Pacific Southwest Section, and the Vice Chair of the American Society of Engineering Education Two-Year College Division. He received his BS in Geodetic Engineering from the University of the Philippines, MS in Geodetic Science from the Ohio State University, and PhD in Mechanical Engineering from University of California, Irvine. Dr. Enriquez may be reached at enriquez@smccd.edu.
