

Al Alexander

Technology Education Teacher
Buffalo Gap and Riverheads High Schools
Augusta County Schools, Virginia

Al Alexander teaches Basic Technical Drawing, Architectural Drawing, Engineering Drawing, Introduction to Engineering, Construction, Technology Foundations and Technology Transfer. His CAD classes are offered as Dual-Enrollment classes for high school students from Blue Ridge Community College in which he is an adjunct faculty member. He prepares students

for a rapidly changing technical world in which we live. He has thirty years of teaching experience. He has also taught apprenticeship and industrial training courses in electricity, electronics, pneumatics, hydraulics, drafting and microprocessor controls. In the summer, he operates with his business partner, A.W. Construction, Inc. a design-build construction and renovation business. He obtained a B.S. degree in Physical Science and Physical Education from Shepherd College in 1978 and an AAS in Electronics Technology from Blue Ridge Community College in 1987. He has done graduate work in Technology Education and Career and Technical Education.
